As a young and ambitious college student, I hope to gather more experience from the workplace while enhancing my character and gaining insights into what it's like behind the counter. With little official work experience, I am very excited to finally get started making a name for myself.

EXPERIENCE

Volunteering / Customer service

- For a brief period of time, I worked at the local movie theatre when Marvel's Infinity War came out to assist a family favorite theatre keep up with the increased traffic.
- In the fall and winter times I'd help my local community by raking leaves and shoveling driveways.
- Being a part of a large family has given me excellent experience coordinating events and managing tenuous situations.
- For the past 2 ½ months I've been a front desk associate and a houseman for a reputable hotel chain: Fairfield Inn by Marriott. My time there has been very positive, and I can guarantee that I will receive a good recommendation from them.
